# SERVICE DESCRIPTION

Our Observability Roadmap Design service offers tailored strategies to enhance observability across your ecosystem. We assess current infrastructure, develop a roadmap aligned with business goals, select suitable tools, and provide implementation plans. With training and continuous support, we ensure effective deployment and ongoing optimisation of observability solutions.

# SERVICE FEATURES

**Comprehensive assessment of current infrastructure and monitoring capabilities**

**Tailored observability roadmap aligned with business objectives and priorities**

**Selection of suitable observability tools and platforms for implementation**

**Detailed implementation plans with clear steps and timelines**

**Training and support for teams to effectively utilise observability solutions**

**Continuous optimisation & enhancement to improve system reliability & performance**

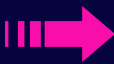

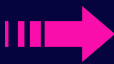

# SERVICE BENEFITS

-  Enhanced visibility into system performance and reliability.
-  Improved decision-making based on actionable insights.
-  Increased efficiency through streamlined monitoring processes.
-  Reduced downtime and enhanced user experience.
-  Better alignment of IT efforts with business goals.
-  Continuous improvement to adapt to evolving needs and challenges.

# SET-UP AND MIGRATION

This service aids in a cloud migration by providing:

-  **Infrastructure Assessment:** Evaluating existing infrastructure readiness for cloud migration.
-  **Strategy Alignment:** Aligning observability strategy with cloud migration objectives.
-  **Tool Selection:** Choosing observability tools compatible with cloud environments.
-  **Implementation Planning:** Developing a roadmap for implementing observability during migration.
-  **Performance Monitoring:** Ensuring visibility into cloud performance during and post-migration.
-  **Issue Detection:** Identifying and resolving migration-related issues promptly.
-  **Optimisation:** Optimising cloud resources based on observability insights.
-  **Continuous Improvement:** Iteratively enhancing observability for sustained cloud performance.

# QUALITY ASSURANCE AND PERFORMANCE TESTING

Our service includes:

-  **Test Planning:** Strategising testing processes for migration readiness.
-  **Functional Testing:** Validating functionality pre- and post-migration.
-  **Performance Testing:** Assessing system performance under various migration scenarios.
-  **Load Testing:** Simulating workload to gauge cloud capacity and scalability.
-  **Stress Testing:** Evaluating system stability under extreme conditions.
-  **Security Testing:** Identifying vulnerabilities and ensuring cloud security compliance.
-  **Regression Testing:** Verifying existing functionalities remain intact post-migration.
-  **Compatibility Testing:** Ensuring compatibility across cloud platforms and environments.
-  **User Acceptance Testing:** Validating user experience in the new cloud environment.
-  **Reporting and Analysis:** Providing detailed reports and insights for optimisation.

# WHY HARRISON?

IT consulting that isn't scripted, templated or "one we made earlier."

We've regularly experienced a hit and run culture of IT service providers that create an amazing sales experience. Yet still, the delivery has fallen short, leaving the customer to pick up the pieces, often at a considerable cost.

At Harrison, our IT consulting is all tailored to the individual customer needs and desired outcomes. We utilise all of the best practice frameworks (ITIL, COBIT, SIAM, Prince2, Agile, etc.) across the full enterprise combining the best elements to ensure your goals and objectives are met.

Our interactions with clients embody a friendly and pragmatic ethos, centred around people. We take a holistic 360-degree approach to our work, deliberately avoiding silo thinking.

Choose Harrison for IT consulting with bespoke solutions, meticulously crafted to align with your unique business objectives.

# CONTACT US

Please send your requirements to [info@harrisonjamesit.com](mailto:info@harrisonjamesit.com). Alternatively, if you wish to discuss your requirements in more detail, please send us the following information and we will be happy to contact you:

1. Your organisation name
2. The name of this service
3. Your name and contact details
4. A brief description of your business situation
5. Your preferred timescales for starting the work
